

International Show of Strength of Turkish Mining

Mining Turkey Fair

Organization in collaboration with the Turkish Mining Development Foundation, 7th International Mining, Tunneling, Machinery Equipment and Heavy Duty Vehicles Fair is ready to welcome exhibitors and visitors at Tuyap Fair and Exhibition Center in Buyukcekmece, Istanbul by November 24th, 2016, Thursday.

The fair opened in attendance by distinguished chairmans of association and industrial spokesmen.

The most comprehensive fair held in Eurasian geography of the industry, Mining Turkey Fair 2016 is hosting for 392 exhibitor companies from 34 countries with national attendances by China, Germany and the Czech Republic.

Mining Turkey Fair remains being the significant and effective organization that assembles industrial professionals both from national and international arenas through mutual discussions organized this year, like 2015, and where major business contracts are concluded.

The fair offers its exhibitors and visitors to witness new products, the-state-of-the-art technology, new machines and equipment as well as alternative solutions for raw materials that contribute highly to efficiency of mining world.

Mining Turkey Fair 2016 will create an atmosphere for all stakeholders in mining sector, including public authorities, civil society organizations, and universities, national and international industrial leaders, where they can directly exchange ideas and acquire information thanks to industrial events to be organized regarding the development of Turkish mining, occupational health and safety in mines, mining and environment.

Organized simultaneously with Istanbul 9th Rubber Industry Fair and Eurasia Urban Fair, MINING TURKEY FAIR 2016 will be open for visiting until Sunday, November 27th, 2016.
